Cemetery Trustees Meeting 3/14/24

Present: Anne Brenton, Kathie Dayotis, Sue Killam, and Margie Watkins, Cemetery Coordinator

- 1) Motion by Kathie Dayotis for Sue Killam to be chair, seconded by Anne Brenton, passed unanimously.
- 2) Discussed Section 6 (newest section) and some inaccuracies by the contractor in the work completed. Angela Wesson attended this part of our meeting and she is organizing a site walk with JAMCO to discuss next steps. Also discussed the need for a plot layout by the town engineer after the inaccuracies are rectified. We discussed the draining issues on both sides, surface needs to be re-leveled, hydroseed, etc. Angela said 75% of the project had been paid, town still owes \$15-17k upon completion. Design of plots estimated \$2-3,000.
- 3) Brief discussion on buyback deeds from a family who will sell us 10 plots (#39) to the town. Kathie took this on.
- 4) Agreed that Kathie will handle all deed transactions with Rockingham County Registry of Deeds.
- 5) To get us operating this spring we need a water pump at approximately \$500. About 6 yards loam is needed, will put in order through town garage. Gator is out for service at \$400 estimated, town garage will do this n/c next year because they have the capability. Need to change out Margie's "holding space" for loam, etc., since Section 6 had served that purpose. (About \$3,500, hoping for warrant article funds)
- 6) Discussed and agreed upon a new pricelist for 2023, to be posted on website. We will no longer sell quads.
- 7) Contract for grub control wiith Tru Green will be signed soon (signed now).

Respectfully submitted,
Anne Brenton
