

## **Do you have a pool? Are you thinking about getting a pool?**

**Fencing codes have changed!**

**Did you know :**

Any pool over 24" deep requires a fence?

All gates are required to be self-closing and self-latching with latches placed at least 3" below the top of the gate .

Upon filling the pool with water it must have a temporary/permanent fence and 30 days thereafter, the pool **MUST** be surrounded by a permanent fence.

All house doors with direct access to the pool **SHALL BE** equipped with an alarm.

Use of the pool is prohibited prior to final electric inspection and a "Certificate of Completion"

**STOP BY THE CODE ENFORCEMENT OFFICE TO PICK UP THE COMPLETE SWIMMING POOL INFORMATION SHEET.**

Even if your pool has existed for many years you may want to consider updating the fencing safety to today's codes.  
Better Safe than Sorry!
