

*Town of Atkinson
Board of Selectmen
BOS Workshop Meeting Minutes
July 30, 2012*

F. Childs opened the Selectmen’s Workshop of Monday July 30, 2012 at 6:30 pm in the Atkinson Town Hall.

Members Present:

F. Childs, Chairman
B. Friel
T. Barbera

Others Present:

B. Innes, Town Administrator

This Workshop was held to continue the discussion on non-standard addressing issues throughout the Town as submitted in a report to the Town from the State E-911 Commission. There are 43 streets in Town that have non-standard addressing. Concerns range from alpha-numeric numbering to unique addressing to lot access.

Discussion:

Each member of the Board and the T/A came prepared to discuss the work that they had done in preparation for this meeting. This included visiting and reviewing each of the 43 addresses with regard to the applicable non-standard addressing issue and comparing that result to the Town addressing standard.

Various options were discussed. It was found that 17 of the addresses were in compliance with current code and removed from the list of 43. Again, key to the discussion was the issue of liability to the Town. The Town cannot correct “a few” non-standard addresses without correcting them on all affected streets.

It was decided that the E-911 commission would be re-formed and that the Highway Safety Committee would review the remaining addresses and report their results back to the BoS with recommendations..

Action Item: B. Innes Bring this up to the Highway Safety Committee and start the process at their August 8 meeting..

**F. Childs made a motion to adjourn the Selectmen’s Workshop of June 18, 2012 at 7:25 pm.
Second: T. Barbera. 3/0/0**

Respectfully Submitted,
Bill Innes

Fred Childs, Chairman

Bill Friel

Todd Barbera
